# Search Website Reference Materials

DID YOU KNOW . . . you can search the reference materials on MicroImages' website using the keyword(s) of interest?

What Searching Website Reference Materials Gives You

- *Search entire website for the keyword(s) of interest*
- *Limit search results to specific categories of information*
- *Access to documentation indexed by Google*

Keywords entered here are transferred to the next level when you click Search Site.

Click on either of these buttons to search information resources.

Enter the keyword(s) of interest and click on the search category to search the reference materials.

Search Technical Guides — 1100 technical reference plates cover a wide variety of feature descriptions and examples. Our large library of Technical Guides are an excellent sources of product information, documentation, and new features.

Search Glossary — The Glossary defines the technical vocabulary used by MicroImages, Inc.

Tech Guides, Quick Guides, and tutorials can also be installed and searched on your local computer. See the Quick Guide entitled *Access Documentation on Local Computer*.

Search Quick Guides — 182 one-page guides offer quick how-to's and power tips. The TNT products have many innovative and useful features that you might not be using. Be sure you are taking advantage of the best and easiest way to accomplish your work.

Search Tutorials — Learn geospatial analysis on your own. 71 booklets offer step-by-step exercises that introduce the features of the TNT products. The tutorial booklets contain illustrated how-to documentation.
