

# FLOATING LICENSE

for **1** concurrent user

TNTmips, TNTedit, and TNT view use a Software License Key that attaches to a computer and enables use of the TNT software.

## 1 Virtual Key Floats Around the Network

Real MicroImages software license key

TNT software

Virtual software license key

The TNT network license manager is enabled by a HASP Net software license key that checks out the TNT software license over an internal network to 1 user at a time.
